For nearly three decades, **Hill Brothers Transportation** has served customers across the country in an efficient, family-centered operation. We were founded by four brothers in 1986: Pete, Al, Pat and Jim Hill. Their goal was to provide the best service in the trucking industry through hard work, dedication and innovative truck driving technology.

Today, we're proud to offer dry van and refrigerated trucking service to our customers and offer long haul, regional and dedicated opportunities for our drivers. Plus, our dedication to safety has put us at the top of industry in DOT compliance and accident preventive programs.

All together, our history, our freight volume, and our safety record combines with our unyielding dedication to customers to offer a superior choice for every transportation need.

## Hill Bros. Logistics

Hill Bros. Logistics, our full 3PL company, specializes in supply chain management for consumer, manufacturing, and distribution industries. We're approved by the General Services Administration, the government's premier acquisition agency for the TransPort Integrator program and service some of the largest names in the food, beverage, electronics, pharmaceutical, and specialty industries in the United States and around the globe.

Our expertise is complete supply chain management and domestic logistics. With our own assets and those of our contracted providers, we manage all aspects of the supply chain so you can concentrate on your core competencies with complete confidence that your system is in the hands of professionals committed to your success and profitable growth.
