## GIVING

No matter what you buy at Shop Good, a portion of your sale supports a deserving effort to strengthen communities and meet real needs both here in Oklahoma City and around the world.

## CRAFTSMANSHIP

We work exclusively with companies who holistically demonstrate a passion for a quality product and for a respectful and healthy production process. It's important to us to use our power as consumers to create a demand for products that are made with a sense of pride, a touch of ingenuity and plenty of care for the people and places involved in creating them.

## STORY

We value what's classic, well-made and long-lasting over flimsy fashion

that's easily discarded, because we value the worth of the lives and livelihoods behind each piece of cloth. It's important to us that our products and price points inspire and empower our customers to spend thoughtfully, since saving a few dollars can often come at a high human and environmental cost.
